WEEKLY BAZOO.

SEDALIA, MO.,

TUESDAY, JULY 10, 1883.

Weather Report.

Corrected daily for the BAZOO by C. G. Taylor, Horologist and Optician, No. 8 Ohio street, for the twenty-four hours ending at 9 o'clock p. m., July 7, 1883.

BAZOO BUZZ.

—A marriage license was granted yesterday to Mr. James Bain and Miss Sophia Smith.

—Take your "4th of July" spoiled clothes to Ed. Quilty, the Lamine street tailor, and he will make them look up like new again.

—Mr. A. B. How, a salesman in the store of Johnson Bros., is the happy father of a charming young daughter, who arrived at his residence Friday night.

—Mrs. John O. Bates went to Sedalia last night, in response to a telegram from her husband, a foundryman who was sent to the Missouri Pacific hospital there some weeks ago for treatment, and is now lying at the point of death.—Parsons Sun.

—Mrs. L. F. Sheldon has the thanks of the BAZOO for the late copies of the American Register, published at London, England. It is a newsy sheet, and contains, besides much interesting miscellaneous matter, many "personals" of prominent Americans.

—Robert Flynt, one of the jolly Pacific express messengers, running between Sedalia and Denver, will make but one more trip, as he has accepted a clerkship in the company's office at Ft. Worth, Texas, where he will report for duty next week. May success always attend you, Bob.

—J. West Goodwin, of the Sedalia BAZOO, has been arrested for publishing an advertisement of the Louisiana State Lottery company. This is a punishable offense, but we see that all the papers in the state publish such advertisements, and we fail to see why Goodwin alone is arrested. The prosecuting attorney of his county must "have it in for him" for some reason.—Mexico Ledger.

Postoffice Receipts.

Sedalia is certainly entitled to the free delivery system, as the following report from Postmaster Blair for the fiscal year ending June 30 goes to show:

Receipts from sale of stamps, stamped envelopes and postal cards.....\$18,734.86
Box rent.....2,360.00
Sale of waste paper.....13.47Total receipts.....\$21,048.93
The postal law of the United States gives to any city a free delivery where the receipts of the postoffice are in excess of \$20,000 per annum, and it was on this ground alone that Postmaster Blair asked that Sedalia be included in the cities where a free delivery system prevails. For the fiscal year ending June 30, 1882, the receipts were also in excess of \$20,000, but not so large by a few hundred dollars as in 1883. Irot along your free delivery, Mr. Postmaster General.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria and Canker Mouth. For sale by Bard & Miller.

Never Lost a Race.

Mr. Newt Douglass returned yesterday from Moberly, where he took the stable of horses belonging to Marvin & Douglass and entered them in the races which were held there during the past week. In conversation with a BAZOO reporter he stated that his "flyers" won every race in which they were entered, and in several cases against fields of really excellent horses.

Mr. Douglass left all of his stock at Moberly, where it will rest up a week, when it will be shipped to Troy, Lincoln county, and entered for the races which begin on the 17th inst.

WHAT

The Paper Published for the People Now on Earth Would Like to Know.

—Why Frank Kell threw away the cheese yesterday?

—What made Newt Sprecher think he was rich yesterday afternoon?

—If Harry Black really thought he had to put a stamp on a postal card?

—If Babe Mills will stop in St. Louis and take "Camille" with him on his trip to Coney Island?

—What the Second street young lady ate while in St. Louis that caused her to double up like a jack-knife?

—If any of the saloons which closed when the high license law went into effect are still selling bug juice on the sly?

—Why Joe Pilkington and Jeff Conner were so anxious to take passage on the west-bound train yesterday afternoon?

—If Joe Logan won't have the field all to himself this evening, now that Professor Sanders is no longer a resident of Sedalia?

—If Gus Wormser has really purchased the engagement ring and will fix the happy day when he visits his dulcinea this evening?

—If the sympathy of the spectators was not with Will Steele's client, judging from the way they snickered while the limb of the law was having his say?

—If Will Steele didn't display good sound sense yesterday when he asked Recorder Rauck if court had adjourned before he spoke his little piece?

—When Fred. Houx and Theodore Springs will take another drive out on Harrison avenue, and if they will not go in daytime instead of night hereafter?

—What object the lady had in view in picking out stitches of costly needlework on exhibition at Mrs. Day's opening, unless to learn the art without paying for it?

—How a certain young lady residing in the southern portion of the city knows that the corset she wears is only two sizes smaller than that worn by Harry Eales?

—If the people residing on Grand avenue did not think a cyclone had struck the neighborhood on Friday night, while Mollie West's ranch was being bombarded by unknown parties?

—The first real skin cure ever discovered was Dr. Benson's Skin Cure. It cures all rough and scaly skin diseases and makes the skin smooth and healthy. It is an ornament to any lady's toilet.

RECKLESS REVELERS,

Who Appeared Before Recorder Rauck Yesterday, to Answer for their Misdeeds.

There were five cases on the police court docket yesterday morning.

John Stansberry pleaded guilty to being drunk, and as he had been arrested twice on the same day for the same offense, being discharged the first time, he was fined \$10. C. Nickels pleaded guilty to a plain drunk and got \$5.

John Kelley, for late hours and trespassing, was assessed \$6.

John Case, an impecunious tramp, pleaded guilty to the charge of late hours and trespassing, and was fined \$6. He was given a stay of execution to leave the city.

The most interesting case before his honor for lo! these many days was that of Mollie West, arrested Friday on the charges of vagrancy and lewd conduct. This case was continued until 2 o'clock in the afternoon and a full report of the proceedings in the trial will be found elsewhere.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 50 cents. For sale by Bard & Miller.

A Variety Theater in Sedalia.

Again is the question of a variety theater in Sedalia being agitated, and this time by parties who mean business. The Fredericks Bros., of Kansas City, who have been running the Comique in that city, are dissatisfied because their license has been increased to what they deem an unreasonable amount, and they are now looking around for a suitable opening.

In conversation with a Sedalia gentleman, a few days ago, one of the brothers said he would like to run a theater in Sedalia, but he feared he could not procure the necessary license.

Being informed that there would probably be no objection in case he conducted his business in a legitimate manner, and kept an orderly house, he said he would visit Sedalia at no distant day, and if he could secure a license and a suitable building, would certainly locate here.

—The Howe Scale took first premium at Philadelphia, Paris, Sidney and other exhibitions. Borden, Selleck & Co., agents, Chicago, Ill.

Camp Meeting.

On the 28th inst., a camp meeting to be conducted by the Rev. Wm. K. White of the M. E. church, assisted by other able ministers, will commence at Climax Springs in Camden county. Services will be held daily, forenoon, afternoon and at night in a large tabernacle tent.

Members of all churches are invited to be present, especially the brethren of the M. E. church.

The meeting is under the auspices of the Climax Springs Association and will be continued four weeks.

The large new hotel of the association will be open for guests at that time and ample accommodations will be afforded for all who attend.

In addition to the splendid hotel accommodations, there are fine grounds for tenting and camping purposes.

Everything will be done to make all who attend, comfortable and happy during their stay.

—Dr. Benson's Celery and Chamomile Pills cured my wife immediately of severe neuralgia.—H. M. Cocklin, Shepherdstown, Pa. Fifty cents at druggists.

SAUCY STEELE.

He Freely Expresses His Opinion of Recorder Rauck and His Court.

An Exciting Scene in the City Temple of Justice Yesterday Afternoon.

As will be noticed by reference to the police court report, published in another column, Mollie West, a courtesan not unknown to fame, was among the list of the victims arraigned before the bar of justice in the police court yesterday morning.

Mollie, who has been absent from the city for ten days, having during that time been holding forth in Kansas City, arrived on train No. 2 from that place Thursday evening. She was accompanied by a "gray" who left the train with her and proceeded with her up town. No sooner, however, had the twain made their appearance on the streets than they were gobbled by a vigilant cop and marched to the cooler. The "gray" who pleaded ignorance, was released, but Mollie, who was not an entire stranger to the minions of the law, was locked up in the ladies' parlor. She secured the services of an attorney, and proposed to make it lively for those who had traduced her.

After several continuances, the case came up in the police court yesterday afternoon. City Attorney Shaw in the interim had made a thorough investigation of the case, and found that there was more or less complaint against the West woman made by the residents residing in the vicinity of her home, but he was unable to find sufficient evidence on which to sustain the charges preferred, and would therefore dismiss the case. The recorder, who imagined that his privileges and authority had been disregarded and interfered with, seriously objected to this course of procedure, and stated that if the case was to be dismissed he was the proper party to dismiss it; that he should be advised by the city attorney, but that that official had no right to dismiss a case. He desired the case to go to trial. Accordingly the recorder ascended the bench and called the case. City Attorney Shaw had in the meantime left the court room, feeling that his services were no longer needed. The witnesses for the city were mostly absent, Officers Wentzleman and Meyers alone being present. The recorder was about to swear these witnesses, when Mr. Steele made a statement to the effect that he desired a trial; that this case had thrice been called and had as often been continued by the prosecution, and he therefore demanded a jury and hoped that the trial would be immediately proceeded with.

"If you want a jury," said the recorder, "this case will be continued until 9 o'clock Monday morning. Court is adjourned until that time."

"Is court adjourned?" inquired Attorney Steele, and upon being informed that it was, remarked that it was "a h—l of a court."

"I fine that man \$10 for contempt of court," roared the irate recorder, "and if he don't pay it lock him up."

But little attention was paid to the mandate of the court, and as Mr. Steele approached the recorder in a menacing manner, the reporters present drew forth their note-books, expecting to have a bloody tragedy to record. Mr. Steele contented himself with the remark, "Fine and be d—d, you lop-ear," and the recorder picked up his books and returned to his office with disgust written all over his classic features.

The fair (?) defendant, upon being informed that her case had been continued until Monday, burst into tears and stated that as she could not give bond she would have to lie in jail until Monday. Subsequently, Officer Wentzleman, the prosecuting witness, and the recorder, had a consultation, and the prisoner was discharged. The BAZOO does not propose to enter into a discussion of any of the legal points involved in this case, but will state that it has always been customary, and in fact

such is the law, for circuit judges, justices of the peace and police magistrates to dismiss cases in which, in the opinion of the county or city attorney, there is no cause for action.

Advance Step in Dentistry.

Havana, Cuba.—The most popular dentist of this city, Dr. D. Francisco Garcia, member of the Royal University, states that in all cases of troublesome neuralgia, arising from the teeth, his patrons are recommended to use St. Jacobs Oil, and the most satisfactory cures have followed. It is a specific for toothache, earache, bodily pains, and proof against household accidents.

RACKET ON THE RAIL.

Items of Interest Picked up by the BAZOO in Railway Circles.

—All the trains except the Lexington branch were several minutes late last night.

—Conductor H. W. Allcorn, of the K. C. & E. division, is in the city, spending a few days with B. B. Ray.

—The train from the west and the Lexington branch train were both more than an hour late yesterday forenoon.

—Wesley Kipp, assistant roadmaster of the Pacific, spent yesterday in Sedalia and returned to his home at Holden in the afternoon.

—Capt. Ed. Earle, foreman painter at the K. & T. shops, left for Topeka yesterday morning and is expected home to-night, accompanied by his little son Harry.

—Dr. J. W. Jackson, general surgeon of the Missouri Pacific, returned yesterday from Texas, where he has been engaged in selecting a corps of assistant and local surgeons for the new lines recently added to his jurisdiction.

—Albert Stillman, for two years past employed in the car building department of the K. & T., leaves to-night for Denison, Texas, where he will accept a similar position in the company's shops at that point. His family will, of course, accompany him.

—Mr. James Turnbull, late foreman in the blacksmithing department at the Pacific shops, left yesterday for Denver, Colorado, where he will accept a similar position in the shops of the D. & R. G. railroad. Mr. Turnbull carries with him the best wishes of all of his old associates in the shops, as well as outside friends and acquaintances.

—Mr. Dan Leonard, late foreman at the Pacific shops and for more than ten years connected with the mechanical department of the Missouri Pacific, left yesterday morning for Salt Lake, Utah, where he will accept a responsible position with the Denver & Rio Grande narrow gauge railroad. Mr. Leonard is one of the most popular railroad foremen who ever resided in Sedalia, having secured alike the affection and respect of his subordinates. The best wishes of a host of friends will follow him and his to his new field of labor.

AT THE HOSPITAL.

There were two arrivals at the hospital yesterday. John Morgan, a freight brakeman from St. Louis, had three ribs fractured on his right side while endeavoring to couple a disabled engine to a bad order car.

M. Powers, a truck repairer, from St. Louis, was received, suffering with a sprained wrist and shoulder.

Martin Lochlin, an inmate of the hospital died yesterday.

After Myers' Scalp.

I see from yesterday's BAZOO that one Matt Myers, supposed by some to be a policeman, says I did not have a majority in the block, and that I obtained my license through fraud (the same, I suppose, as he did his appointment). I did not know that this man, who does not reside in the block, was appointed by the city to circulate remonstrances after licenses had been granted. I would suggest to the city fathers, and the parties whose tool this man is, that he had better attend to his own business, if he has any. I will simply say that I have more than a bona fide majority and have complied with the law in all respects. I have also enlisted for the campaign.

A. C. LINTON.

ROCKED THE RANCH.

Mollie West's Castle Stoned by Unknown Parties Friday Night.

The Doors and Windows Battered in While the Madam Was Absent.

Some days ago Mollie West, a notorious courtesan, who has been renting rooms in different portions of the city for months past, leased a one-story frame house on Grand avenue of Mr. Frank Gibbons, the owner, and at once moved her traps in and announced herself as ready for traffic.

Of course a howl of indignation went up from the neighbors, and Mollie was not long in ascertaining that her room was much preferable to her company. She remained but three days in her new quarters, when she learned that an effort was being made by a number of respectable people to get rid of her, so she locked the doors and took a trip to Kansas City, where she remained until Thursday night, when she returned with a man whom she claimed was her husband. She at once repaired to her home on Grand avenue, where she spent the night with her alleged husband, and on Friday morning came down town.

Of course her return was the signal for a second howl to ascend, and the residents of the street on which the "castle" is located arose in a body and determined she should vacate the place.

About noon on Friday, Mollie and her alleged husband came down town, and while walking along Main street were arrested by Officers Wentzleman and Barnett and taken to the cooler, where charges of vagrancy and lewd conduct were preferred against Mollie, while the man was discharged.

Later in the day Mollie was released on bond, but instead of going home, spent the night elsewhere.

Knowing that the West woman had returned with the intention of remaining, several of the more brash of the residents on Grand avenue took it upon themselves to get rid of her, and took the matter in their own hands.

Between 9 and 10 o'clock Friday night the "castle" was visited by a number of unknown parties, who at once began a bombardment of the house, battering in the doors, breaking the windows, and demolishing things generally, and when Mollie returned, about 10 o'clock yesterday morning, she realized that Grand avenue was no place for her to hang out any longer. She at once removed her things to some other point, and when the west-bound train arrived she boarded it, saying she was going to Kansas City.

In conversation with a BAZOO reporter, while at the depot, the harlot said she had no idea who the parties were that had wrecked her home. She claimed that they broke several articles of furniture, and a lady's gold watch chain was carried off by them. She had never conducted a disorderly house, she said, and why she should be driven out and much worse woman permitted to remain was beyond her comprehension. She was most emphatic in saying that she was done with Sedalia forever, and the BAZOO hopes that such may be the case.

Of course the BAZOO does not endorse the action of the parties who demolished the prostitute's residence, but they probably realized that the officers of the law would not take immediate action to rid the community of the woman's presence, so they took the task upon themselves and succeeded even beyond their fondest anticipations. But all is well that ends well.

Horsford's Acid Phosphate, Indigestion from Overwork.

Dr. DANIEL T. NELSON, Chicago, says: "I find it a pleasant and valuable remedy in indigestion, particularly in overworked men."

ALICE'S ADVENTURES.

The Notorious "Wasp" Again in the Hands of the "Cops."

"Well, we have got her again," remarked a police officer to a BAZOO reporter, when the news gatherer visited the police station at the midnight hour.

"Got who?" queried the reporter.

"Why, you ought to know. Who else could it be but Alice, the wasp," so called by you reporters.

A newspaper reporter scarcely being astonished at anything that he might hear, was nevertheless considerably surprised upon being told that Alice had been again arrested.

This unfortunate girl has perhaps had as much, if not more, experience in the ways of the world than many more older and more distinguished criminals.

Yet but a child, she is hardened in sin, and it seems that all efforts to reform her have always proved futile. Several days ago she was arrested on the charge of trespass and disturbing the peace, and confined in the calaboose.

Yesterday Alice related a most pitiful story to the mayor, stating that she had two little brothers dependent upon her for support. Under these circumstances the mayor remitted the fine against the girl and ordered her release. No sooner was she discharged than she again started out on the street, and by her lewd conduct soon compelled the officers to take her in. She now occupies her old quarters in the "ladies parlor."

There is a text here sufficient for a lengthy sermon, but it is not the province of the BAZOO to sermonize in matters of this nature.

The instance may possibly furnish some enterprising clergyman with a text, and if he attempts to handle the question he will find a most fruitful and inexhaustible theme. The only difficulty to be apprehended is that the hearers will eventually weary of a subject so long drawn out.

DIRECTORS DOING DUTY.

The Contract for the East Sedalia School House Awarded.

The Price is \$11,271 and C. H. Elliott Will Construct the Building.

The Enumeration of School Children, White and Black, is 5,650.

There was a special meeting of the school board yesterday forenoon, all the members being in their seats except Mr. Dalby, who was unavoidably absent.

The contract for erecting the new school house in East Sedalia, on Summit, between Sixth and Seventh streets, was the first business taken up, and after a thorough discussion it was awarded to Mr. C. H. Elliott, at a cost of \$11,271, including all extras except stone work for the foundation.

President Mertz wanted some date specified for the completion of the building, and asked Mr. Elliott how long a time he desired.

That is a matter that rests almost entirely with the board," said Mr. Elliott. "There is such a thing as rushing a job through and being compelled to slight it, especially can this be done in the matter of brick work, plastering and painting."

Mr. Montgomery said the board wanted nothing but first-class work in all the different branches, but they would like to have the building ready for occupancy as early as a date as possible.

After further discussion Mr. Elliott agreed to have the building completed by the first of November, and will enter into a bond in the sum of \$10,000 for a faithful performance of the contract.

On motion of Mr. Faulhaber, payments are to be made as the work progresses, the amounts to be left to the discretion of the building committee.

The report of B. F. Chapman was presented, showing the following enumeration of pupils in the city between the ages of six and twenty years:

White males.....1,482
White females.....1,676

Total.....3,158

Colored males.....229
Colored females.....263

Total.....492

Whole number.....3,650

Total university list, between the ages of sixteen and twenty-five years.....936

The report was received and filed. As the corps of teachers for the ensuing year lacked four of being full, the board proceeded to fill the vacancies, the following being elected:

Miss Lilly M. Bruner, late of the Kirkwood seminary.

Miss Jennie Bratton, of Warrensburg.

Miss Jennie Dodson, of Kirksville.

Miss Mary E. Emerson, of Warrensburg.

A communication was received from Miss Jennie Batterson, asking that her salary be placed at \$55 per month, but after considerable informal talk it was laid on the table, the board deciding they would not interfere with salaries heretofore fixed.

On motion, the building committee was instructed to advertise for bids for the erection of an eight-room school building in West Sedalia—the same to be a duplicate of the East Sedalia building.

On motion, a contract was closed with Messrs. Sneed & Porter for the lease of two rooms in the Lafayette Garden building, on East Third street, for school purposes, at a rental of \$50 per month.

On motion, the committee on supplies was instructed to ascertain what number of school desks could be purchased in Sedalia and at what cost.

On motion, adjourned.
